LIFE AT SNOWFLAKE ✓

## DATA SCIENTIST (NEW COLLEGE GRAD)

San Mateo, California, USA

Finance &amp; Accounting

REQ11337

[APPLY NOW \(https://careers.snowflake.com/us/en/jobs/7317272002\)](https://careers.snowflake.com/us/en/jobs/7317272002)

Build the future of data. Join the Snowflake team.

There is only one Data Cloud. Snowflake's founders started from scratch and designed a data platform built for the cloud that is effective, affordable, and accessible to all data users. They engineered Snowflake to power the Data Cloud, where thousands of organizations unlock the value of their data with near-unlimited scale, concurrency, and performance. Our vision: a world with endless insights to tackle the challenges and opportunities of today and reveal the possibilities of tomorrow.

We're growing and looking for a talented new college graduate to come aboard and join our Data Science team in Finance starting this summer. We are looking for someone who is passionate about analytics and is able to approach complex problems in an organized and detail-oriented manner. As Finance touches on all aspects of the business, you should have a deep understanding of customer behavior and the important drivers of various departments.

### AS A DATA SCIENTIST AT SNOWFLAKE, YOU WILL:

- Work with time-series datasets to forecast many of our key financial metrics, such as product revenue, bookings, billings, and infrastructure costs
- Build data products that provide finance leadership with insights on customer usage patterns and product efficiency growth
- Generate insights into drivers of our business leveraging statistical methods and participate in extending and developing internal tools used for this purpose
- Build predictability and statistical confidence for the growth of our business and continue building a data-driven culture within Snowflake.
- Think creatively to find optimal solutions to our complex, typically unstructured problems.

### QUALIFICATIONS:

- **Must be within 1 year of graduation from most recent degree by the time of start date**

Find similar jobs

**Must not be currently employed in a relevant, full time industry position**

- BS/MS in a quantitative discipline (Math, Statistics, Operations Research, Economics, Engineering, or CS)
- Hands on experience working with SQL and relational data

- Experience with Python, including scikit-learn, numpy, and pandas.
- Ability to clearly present learnings to both technical and non-technical stakeholders
- The ability to thrive in a dynamic environment. That means being flexible and willing to jump in and do whatever it takes to be successful.

The following represents the expected range of compensation for this role:

- The estimated base salary range for this role is \$110,000 - \$161,000.
- Additionally, this role is eligible to participate in Snowflake's bonus and equity plan.

The successful candidate's starting salary will be determined based on permissible, non-discriminatory factors such as skills, experience, and geographic location. This role is also eligible for a competitive **benefits** (<https://careers.snowflake.com/us/en/benefits>) package that includes: medical, dental, vision, life, and disability insurance; 401(k) retirement plan; flexible spending account; at least 12 paid holidays; paid time off; parental leave; employee assistance program; and other company benefits.

Snowflake is growing fast, and we're scaling our team to help enable and accelerate our growth. We are looking for people who share our values, challenge ordinary thinking, and push the boundaries of innovation while building a future for themselves and Snowflake.

How do you want to make your impact?

**APPLY NOW (<https://careers.snowflake.com/us/en/apply?jobseqno=sncous7317272002externalenus>)**

Snowflake is an **equal opportunity employer** (<https://careers.snowflake.com/us/en/equal-opportunity>). All qualified applicants will receive consideration for employment without regard to age, color, gender identity or expression, marital status, national origin, disability, protected veteran status, race, religion, pregnancy, sexual orientation, or any other characteristic protected by applicable laws, regulations and ordinances.
